ANDRI PRAMUJI

SENIOR SOFTWARE ENGINEER | TECHNICAL LEADERSHIP
Bandung, West Java, Indonesia | 0856-1963-999 | thedrongs@gmail.com | linkedin.com/in/andri-pramuji-47aa42220

PROFESSIONAL SUMMARY

Software engineer with **13+ years** in technology and delivering **25** applications across web, mobile, desktop, and banking payment platforms. Led cross-functional teams of up to **12 people** across **FE**, **BE**, and **QA**. Combines team leadership, stakeholder coordination, and hands-on engineering, using AI tools to improve productivity, software quality, and operational efficiency.

KEY ACHIEVEMENTS

- At **Nabati**, improve squad **AI adoption usage** by **~70%** (from **29% to 100%**).
- At **Nabati**, improved **team productivity** by **10%**, as tracked in **weekly** reports, through technical debt reduction, build optimization, and stronger engineering practices.
- At **Arahnet**, refactored **BPD Bali's EDC app**, cut **packet sizes by ~50%** and **transaction latency** from **4–5** to **2 seconds**.
- At **Nelly**, reduced weekly SMS reporting consolidation time by **60%** by building a web-based **SMS gateway** supporting **30 ships**.

EXPERIENCE

PT. Kaldu Sari Nabati Indonesia (NABATI)

Bandung, Indonesia

Squad Leader | Dec 2025 - Oct 2026

- Led and manage **9-person** cross-functional squad across **FE**, **BE**, and **QA**, translating business goals into sprint **delivery** plans.
- Owned **end-to-end Agile delivery** using **AI-assisted workflows**, coordinating **stakeholders**, priorities, risks and documentation.
- Used **Spec-Driven Development (SDD)** and structured **AI Prompt Engineering** to build and maintain 8 **React.js/Next.js apps** and 5 **Go microservices**, implement **third-party integrations**, and support **UAT.**
- Led squad-wide adoption of **AI tools** and mentored developers in **prompt-driven** workflows to accelerate development.
- Used **prompt-driven AI orchestration** to automate **API testing workflows.**
- Applied **TDD** using **AI-generated Jest/Playwright** aligned with **stakeholder use cases/edge cases**, and **AI-assisted code reviews**.

Tech Stack: React.js, Next.js, TypeScript, Radix UI, Ant Design, Tailwind CSS, Redux, Zustand, Go, MongoDB, Redis, gRPC, RabbitMQ, cron jobs, REST APIs, Jest, Playwright, Grafana, OpenTelemetry, Elastic APM, Vault, Argo CD.

Technical Lead | Apr 2024 - Dec 2025

- Led and manage **12-person** team across quality, workforce planning, KPIs, performance input, hiring and technical decisions.
- Reduced technical debt, bringing **SonarQube**-reported issues down from **5,000+** to **450 (~90%)** within **6 months**.
- Led UI library optimization using **Storybook.js** & **Rollup.js**, reducing build time by ~**80%** (8–10 to 1–2 min) within **3 months**.
- Designed and implemented **Jest** testing, 1:1 code reviews, codebase modernization, and engineering standardization with the team, cutting **weekly** bug tickets by **~70%** (**20–30** to **5–10**) within **4 months**.
- Engineered **4 full-stack apps** for senior management using **React.js**, **Vite.js**, **Go**, **Node.js, Express.js,** and **monolithic/layered architecture**.
- Built and maintained **12 frontend apps** in **monorepo** and **microfrontend** using **React.js, Next.js, and Vite.js**, alongside **React Native mobile apps**, across **ERP, SFA, HRIS, FICO, VIM, Logistics,** and other field operations tools.

Tech Stack: React.js, Next.js, TypeScript, Vite.js, Rollup.js, Ant Design, Tailwind CSS, Zustand, Storybook.js, React Native, Mini Program (Taro.js), Go, Express.js, Node.js, REST APIs, MySQL, Jest, SonarQube, AWS (EC2, S3, RDS).

Senior Frontend Developer | Mar 2023 - Apr 2024

- Delivered **4 ERP web and mobile apps** using **React.js, Next.js, and React Native**, with reusable frontend workflows and **microfrontend architecture for web**, collaborating with **BE** and **QA** on API integration, testing, and production releases.

Tech Stack: React.js, Next.js, Ant Design, React Native, REST APIs.

PT. Arah Dinamika Abadi

DKI Jakarta, Indonesia

Frontend Developer – Payment Systems | Dec 2016 - Mar 2023

- Delivered **EDC, POS,** and **TMS** solutions for **8 Indonesian banks** using **C, C++, PHP, and Kotlin**, covering **NSICCS-compliant ISO8583 implementations**, mandatory updates, **pre/post-UAT**, troubleshooting, compliance, and legacy support.
- Mentored **3 junior** developers and **interns** from **Feb 2021** to **Dec 2022**.

Tech Stack: C, C++, PHP, Kotlin.

PT. Pelayaran Nelly Dwi Putri Tbk.

DKI Jakarta, Indonesia

IT Staff & Full-stack Developer | Mar 2013 - Nov 2016

- Developed and maintained a full-stack company website using **HTML, CSS, JavaScript, PHP, and MySQL**, enabling regular content updates to support periodic reviews by the **Indonesia Stock Exchange (IDX)**.
- Initiated, built, and maintained a **web-based SMS gateway**, reducing weekly SMS consolidation time by approximately **60%**. Automated company file backups to support operational continuity.
- Provided **infrastructure**, **networking**, **maintenance**, and troubleshooting support for **40+ PCs** across **office** and **operational environments**.

Tech Stack: HTML, CSS, JavaScript, PHP, phpMyAdmin, MySQL.

PROJECTS

rimce.id — Bakery E-Commerce & Management System | Sep 2026 - Ongoing

- **Digitalization** a **6-year-old** bakery business serving **20+** customers **monthly** across 2 **cities**, **Jakarta** and **Bandung**, through a **preorder e-commerce** platform with **5 services**, supporting **order**, **payment**, **production**, **delivery**, and **financial** management**.**

Enterprise Web, SaaS & Internal Business Platforms | Mar 2023 - Oct 2026

- **Web ERP, SFA, VIM,** and **FICO with SAP integration**, alongside **HRIS**, Salesman Tracker for **8,000+ outlets**, Surveyor App, Routing and Tracker System, Logistics Monitoring System, Restaurant Mapping, and a multi-user Meeting App.

NSICCS, EDC & POS Payment Applications | Dec 2016 - Mar 2023

- Delivered **NSICCS-compliant ISO8583 EDC, POS, and TMS solutions** for **7 Indonesian banks: BPD Bali, BPD Jateng, Bank Victoria, BNI, Bank Syariah Mandiri (now BSI), Bank Aceh, and Bank NTT**, supporting certification, **UAT**, issue resolution, mandatory updates, and transaction continuity.
- Provided **legacy payment system support** and **updates for Bank Mandiri.**

SKILLS

Leadership: Engineering Leadership, Technical Leadership, Cross-Functional Team Leadership, Mentoring, AI Adoption, Stakeholder Alignment, Delivery Planning, Risk Management, Performance Review Input, Workforce Planning, Project Management.

Software Design & Architecture: Monolithic, Microfrontend, Microservices, Layered, Event-Driven, Clean, Hexagonal.

Delivery & Engineering Practices: Agile, Scrum, Waterfall, Spec-Driven Development (SDD), Test-Driven Development (TDD), Sprint Planning, Backlog Refinement, Code Review, Pair Programming, Trunk-Based Development, Release Planning, Technical Documentation, Technical Debt Reduction, AI-Assisted Development.

AI Tools & Practices: Prompt Engineering, Prompt-Driven AI Orchestration, Codex, Claude Code, Kiro (AWS), Antigravity (Google), Hermes Agent.

Frontend: JavaScript, TypeScript, React.js, Next.js, React Native, Vite.js, Rollup.js, React Query, Zustand, Redux, Axios, Tailwind CSS, Ant Design, Radix UI, Storybook.js, Mini Program (Taro.js).

Backend & Integration: Go, Node.js, Express.js, REST APIs, Third-Party Integrations, gRPC, Protocol Buffers, RabbitMQ, Redis, MySQL, MongoDB, PHP, Firebase, cron jobs.

Testing & Quality: Jest, Playwright, SonarQube, Automated Testing, AI-Assisted Test Development, API Testing, Test Planning, Use Case Analysis, Edge Case Analysis, UAT Support.

Cloud, DevOps & Observability: AWS (EC2, S3, RDS), Docker, Kubernetes, Argo CD, Vault, OpenTelemetry, Elastic APM, Grafana.

Version Control & CI/CD: Git, GitLab, GitHub Actions.

Management Tools: Jira, ClickUp, YouTrack.

Other Programming Languages: C, C++.

EDUCATION

Bina Nusantara University (BINUS)

Bachelor of Computer Science (S.Kom)

LANGUAGES

Bahasa Indonesia (Native) | English (Business Working Proficiency)
