KEY ACHIEVEMENT

Total Apps Delivered

Developed and delivered applications across web, mobile, Android, EDC, and enterprise platforms.

20+

Applications

Largest Team Led

Led teams of up to 12 members across FE, BE, and QA, manage coordination, ownership, and execution quality.

12

Members

Improve Delivery Efficiency

Reduced technical debt by 90% within 6 months, improving delivery efficiency and reducing rework-related cost risks.

10%

Increase

Increase Productivity

Reduced UI library build time by 80% within 3 months, reducing overall idle time of engineers.

10%

Increase

Reliability Improved

Reduced frontend-related issues by 70% through codebase modernization, dependency simplification, and engineering standardization.

70%

Reduced

TECH STACK

FRONTEND

 TypeScript  React & Native  Nextjs  Vitejs
 Ant Design  Tailwind  Zustand  Kotlin

BACKEND

 PHP  Golang  Nodejs  Expressjs
 MySQL  Redis  RabbitMQ  MongoDB

Quality, Observability & DevOps

 Docker  Jest  SonarQube  Kubernetes
 Vault  ArgoCD  OpenTelemetry  Grafana
